*These commonly used ICD-10 diagnosis codes are intended to assist physicians and other authorized ordering parties in providing correct ICD-10 codes as required by Medicare and other insurers. The codes are based on ICD-10-CM 2018, Medicare Regulations and Manuals authorized by the Centers for Medicare and Medicaid Services. The list is not complete – the ICD-10-CM book should be referenced for a complete list of codes. The physician or other authorized ordering party is responsible for providing correct codes that support the medical necessity of each test ordered for the diagnosis and treatment of the individual patient.
