Antibody Titer Methodology Change – Effective October 1, 2024

Dear Valued Client,

We are writing to inform you of an important update regarding the **Antibody Titer** test at HNL Lab Medicine. Effective **October 1, 2024**, we will be transitioning the Antibody Titer test to a new, more advanced platform, which will enhance the sensitivity and precision of our testing.

Key Changes:

- **Improved Sensitivity:** The new platform is designed to offer improved sensitivity, potentially resulting in titer results that are **one to two dilutions higher** compared to the current testing method.
- **Updated Cut-Off Values:** With this change, the cut-off for titer results will be updated. The new threshold will be **greater than or equal to 1024**, compared to the previous cut-off of **greater than or equal to 2048**.

We are confident that this enhancement will improve the accuracy and reliability of our antibody titer testing, ensuring you receive the highest quality results for your patients.

Should you have any questions or need further clarification regarding this update, please don't hesitate to contact our Technical Support team at 877-402-4221 between the hours of 8 a.m. and 4:30 p.m. For general questions, Customer Care is available to assist at any time.

Sincerely,

HNL Lab Medicine
