Test Code, Collection & Processing Update

Bladder Cancer FISH, MD Review

Effective Date	**Immediately**
Description of Change	The test code for Bladder Cancer FISH, MD Review, UROVF, has been updated and replaced with test code, **UROVB**, along with a new kit and revised collection and processing instructions.
Test Name	Bladder Cancer FISH, MD Review **Alternate Test Names:** • FISH-Urine • UROVYSION FISH
Test Code	Old Test Code: UROVF **New Test Code: UROVB**
Additional Information	**New Collection Instructions:** • Use the large, open cup provided in the kit to collect the urine specimen. • First void of the day is preferred. • Ensure the urine specimen reaches the minimum fill line of 33 mL. **New Processing Instructions:** • Use the new TCC Monitoring Kit (Dianon Cytology/Urovysion Collection Kit). • Slowly pour urine into the smaller container up to the maximum fill line of 90 mL. • Tighten the lid until you hear a click to prevent leakage. **Below is an image of the new kit (TCC Monitoring Kit):**
